Dear Readers,

First, I would like to greet you all from the bottom of my heart. The only motive of this assessment is to give you a clear picture of the situation of few kids here in our school. In fact, every one of us is the social beings and of course, the situation is not always the same or similar. Sometimes the happy moments changes into tragedy and vice versa.

Similarly, few kids are lucky to get sponsor from around the world and few still looking for after their situation changed, it means after they faced big changes in their life.

I am trying my best to give you clear picture of the exact situation of each kid with their photos. Please suggest me if I can do even better so that I will try my best repeatedly.

With Best Regards

Dear Sir,

As you know that I am the student of your school. And I am as good at study. But I think I can't continue my study because of my family's weak financial status.

This year, my family has been facing a great problem. Due to this my mother is not able to pay our room's rent. My father had an accident the previous year. So, he is unable to work even till now. And my mom alone can't run a house. She needs to pay our school fee, room's rent, buy food and so on.

My mom has a great difficulty in paying our school fee and home's rent. So, I request to help us a little. I will wait for your positive response.

Thank you!

Your faithfully
Sonjani Tamang

Rohan Bhandari :-

Rohan is an energetic child studying in Grade 8. Rohan is 13 years old. Rohan likes playing Cricket and wants to be a top Cricket player in future. His hobby is to read different kinds of storybooks in spare time.

Many years ago his father got big motorbike accident, was in critical condition, and had to give bloods, pints after pints. After accident, his behavior completely changed. He started drinking, smoking, beating mother etc. People known him believe that may be due to the blood he has taken in hospital his behavior changed. He was really food husband, a good father and a good person before. Now days he is a-bit changed but cannot work anymore and if he do something or walk a bit then his muscles start aching so Rohan mother also has to look after him.

Rohan got two elder sisters and the biggest one is completing her Masters level study soon, currently working as a tuition teacher, and supporting her sister in her environmental Science study. Both sisters studied here from Nursery to Grade 12 few years back.

Rohan's mother is working in a Hotel Training Centre to support family. 6 family members living together (Rohan, mother, father 2 sisters, and grandmother).

Rohan will start his Grade 9 from mid-April and his school expenses for Grade 9 would be Euro 750 (i.e. School fee and reg. 645, Tiffin 40, Swimming & Extra Activities 20, and Books & Stationary 45).

Rohan Koirala (Tamang) :-

Rohan is an lively and charming child. Rohan got big sister and an elder brother. Rohan's sister is studying Grade 12 and is living with her Aunt and she is sponsoring her. Rohan's elder brother is living with his another Aunt in village. Rohan is

Rohan's mother left them and married with someone else and his father left them and married with someone else. They are no more together since around 8 years and since then the aunt from Kathmandu is financing them all. Now the aunt from village cannot put both the child as she got big family and financial problem. So the aunt from Kathmandu who is sponsoring them has to keep this child also (so now Elder sister and Rohan will be with Aunt in Kathmandu) with her and as she is doing tailoring job (making clothes), it is a bit hard for her to manage study of Rohan. So she came to me and asking me for only schooling for Rohan and rest like lodging and fooding she will manage. (She asked me this before also and I asked you and you tried to help and also sent money too but the problem was she (aunt) couldn't bring him in Kathmandu as she was alone and financial condition was not very good so we transfer the money after asking you to Utshob Bohara).

Now Rohan would like to study in Boarding school in Kathmandu and the Aunt is trying her best to send her in our school. Therefore, Rohan can come anytime from village if he is lucky.

He is now studying in 3 in village and now he is starting his Grade 4 here in our school. His school Expenses for Grade 4 will be Euro 450 (i.e. School fee and reg. 345, Tiffin 40, Swimming & Extra Activities 20, and Books& Stationary 45). (
